EDUCATION

Course	Institute Name	University / Board	Year of Passing	Score (CGPA/%)	Course Type
UG - B.E. (IT)	MVSR Engineering College	Osmania University	2027	8.70 CGPA	Full-time
12th / HSC	SR Junior College	State Board	2023	96.5%	Full-time
10th / SSC	GHS Krishna Colony	State Board	2021	10.0 CGPA	Full-time

INTERNSHIP EXPERIENCE & FREELANCE WORK

Full Stack Developer Intern

May 2026 - Aug 2026

Gradientts

Remote

- Developed scalable full-stack applications using React.js, Node.js, Express.js, MySQL, and RESTful APIs with secure authentication and payment integration.
- Built responsive dashboards, optimized application performance, and collaborated using Git/GitLab in an Agile development environment.

Web Development Intern

Jan 2026 - Apr 2026

ThinkLab Digital Solutions

Remote

- Developed custom WordPress websites with responsive UI, theme customization, plugin integration, SEO optimization, and performance enhancements.
- Built a full-stack web application using React.js, Spring Boot, MySQL, and RESTful APIs with secure CRUD operations.

Freelance Web Developer

Feb 2026 - May 2026

Black Legal Associates

Remote

- Designed and deployed a custom WordPress website with responsive UI, custom themes, plugins, technical SEO, CAPTCHA, malware protection, and security hardening.

PROJECTS UNDERTAKEN

MediConnect | React.js, Spring Boot, MySQL, Docker, REST APIs

- Architected and developed a production-ready full-stack healthcare platform enabling secure patient, doctor, and administrator workflows through role-based dashboards and RESTful services.
- Implemented JWT-based authentication, Role-Based Access Control (RBAC), appointment scheduling, patient record management, and payment gateway integration.
- Integrated MedAssist, an AI-powered virtual healthcare assistant, to provide intelligent medical guidance and enhance patient engagement.
- Designed scalable backend APIs using Spring Boot and MySQL, containerized the application with Docker, and optimized deployment consistency.

Email Scheduler | Node.js, TypeScript, BullMQ, Redis, PostgreSQL, Prisma

- Built a production-grade email scheduling platform supporting scheduled delivery, sender management, and a dashboard for tracking scheduled and sent emails.
- Implemented persistent, restart-safe job scheduling with BullMQ and Redis, ensuring scheduled emails are not lost when the server restarts.
- Designed PostgreSQL data models with Prisma for emails, senders, delivery status, and event tracking, with transactional updates across the email lifecycle.
- Added rate limiting and queue-based concurrency control to manage email throughput and prevent excessive sending from individual senders.
- Integrated Google OAuth authentication and deployed the application using Render, Neon PostgreSQL, and Upstash Redis.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

AI/ML: TensorFlow, Scikit-learn, NumPy, Pandas

Core: DSA, OOP, DBMS, Operating Systems, Computer Networking

Databases: MySQL

Backend: Spring Boot, Node.js, Express.js, FastAPI

DevOps: Docker, Git, GitHub, GitLab

Concepts: REST APIs, MVC Architecture

STRONG SUBJECTS

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networking

CERTIFICATIONS

- NPTEL** - C Programming (2024)
- NPTEL** - Java Programming (2024)
- NPTEL** - Java DSA (2024)
- Amazon AWS** (2024)
- Smart Coder** - DSA - Smart Interviews (2024)
